

Open Data

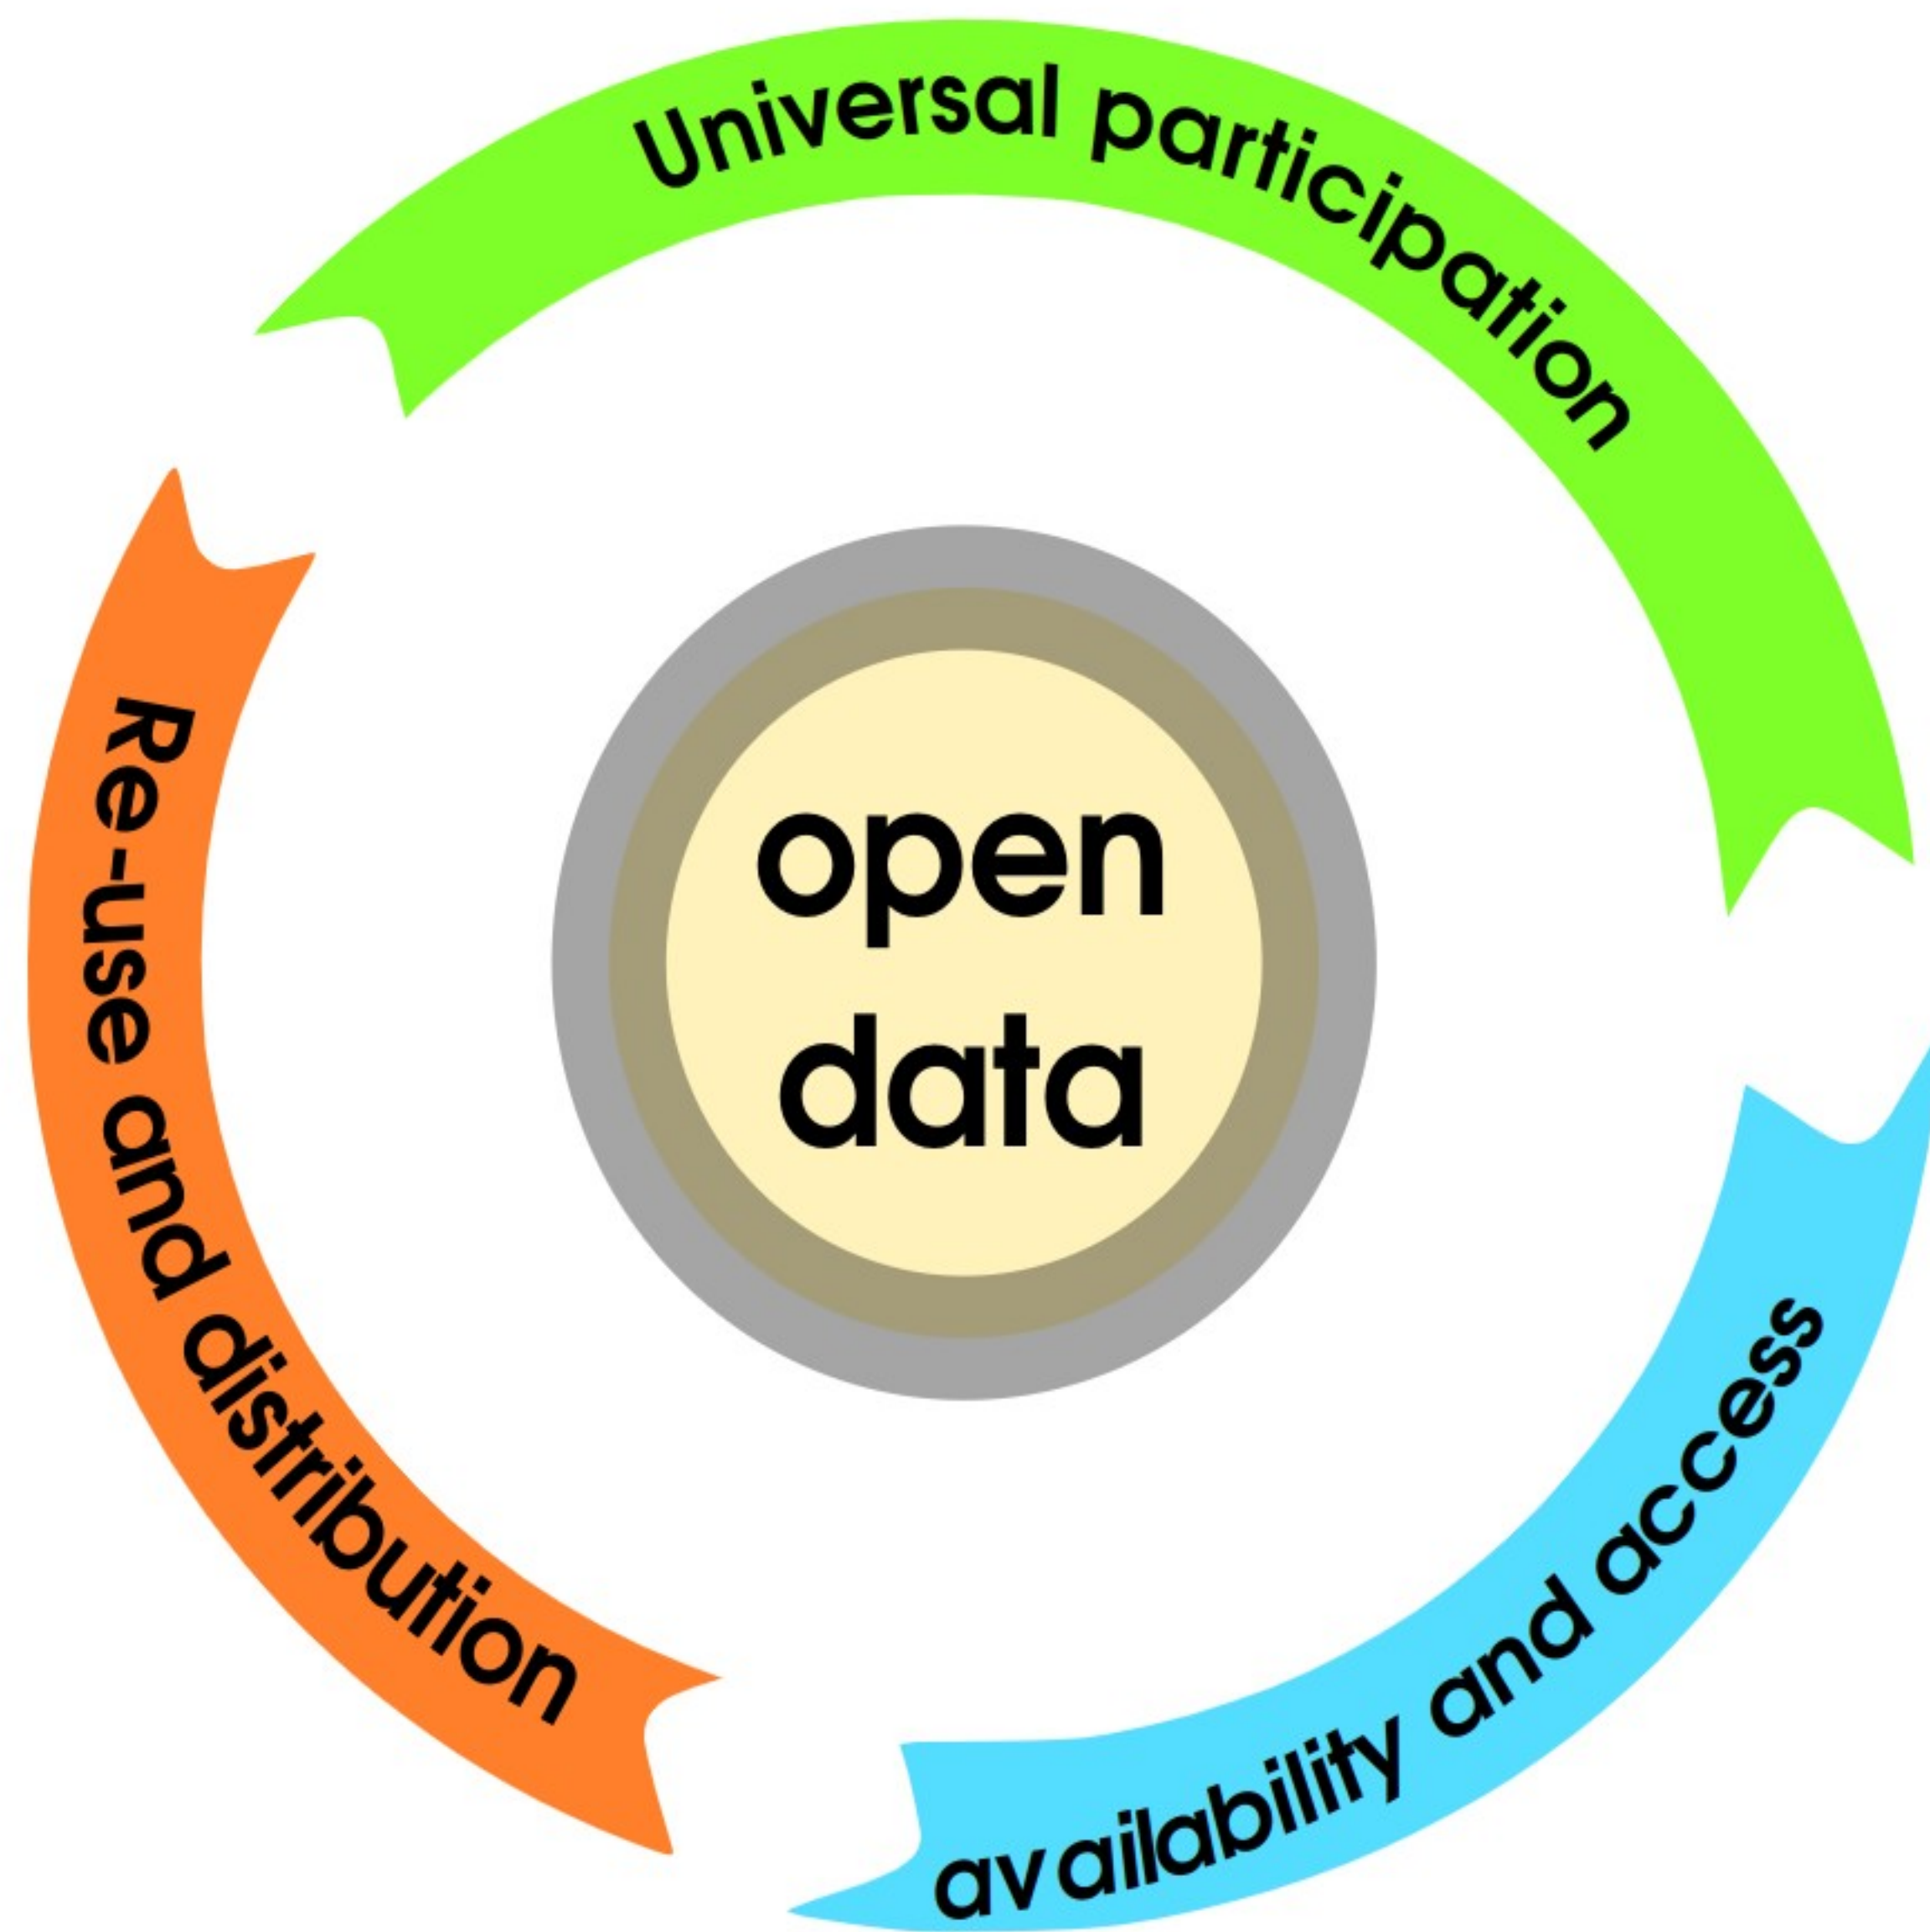

An Introduction

Athul R T

Definition

Open data is data that can be freely used, re-used and redistributed by anyone - subject only, at most, to the requirement to attribute and sharealike.

How can you say
if a data is open or not

License

Different types of open data licenses

Different types of open data licenses

CC0 Public Domain license

Allows users to distribute, remix, adapt, and build upon the material in any medium or format, with no conditions

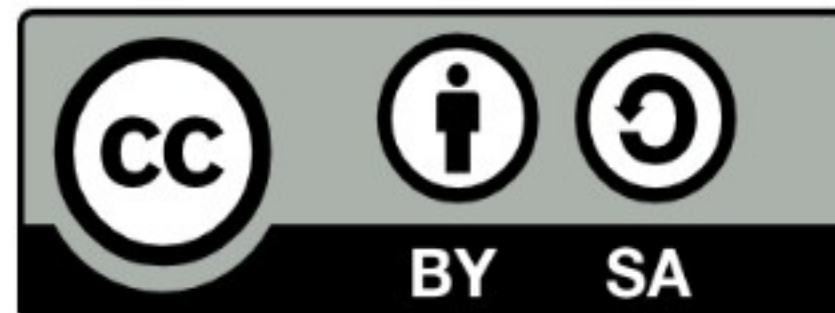

CC BY 4.0

Allows users to distribute, remix, adapt, and build upon the material in any medium or format, so long as attribution is given to the creator

Different types of open data licenses

CC BY SA 4.0

Allows users to distribute, remix, adapt, and build upon the material in any medium or format, so long as attribution is given to the creator and adaptations must be shared under the same terms

Different types of open data licenses

PDDL v1.0

Public Domain Dedication and License

You are free:

1. To share: To copy, distribute and use the database.
2. To create: To produce works from the database.
3. To adapt: To modify, transform and build upon the database.

Different types of open data licenses

ODC-BY v1.0

Open Data Commons Attribution License

You are free:

1. To share: To copy, distribute and use the database.
2. To create: To produce works from the database.
3. To adapt: To modify, transform and build upon the database

As long as you:

1. Attribute: You must attribute any public use of the database, or works produced from the database, in the manner specified in the license..

Different types of open data licenses

ODbL-1.0

Open Data Commons Open Database License

You are free:

1. To share: To copy, distribute and use the database.
2. To create: To produce works from the database.
3. To adapt: To modify, transform and build upon the database

As long as you:

1. Attribute: You must attribute any public use of the database, or works produced from the database, in the manner specified in the ODbL.
2. Share-Alike: If you use an adapted database, you must also offer that database under the ODbL
3. Keep open - Redistribution of any version or any part of the database must be unrestricted. This means that sections of your database can't be protected behind a pay wall.

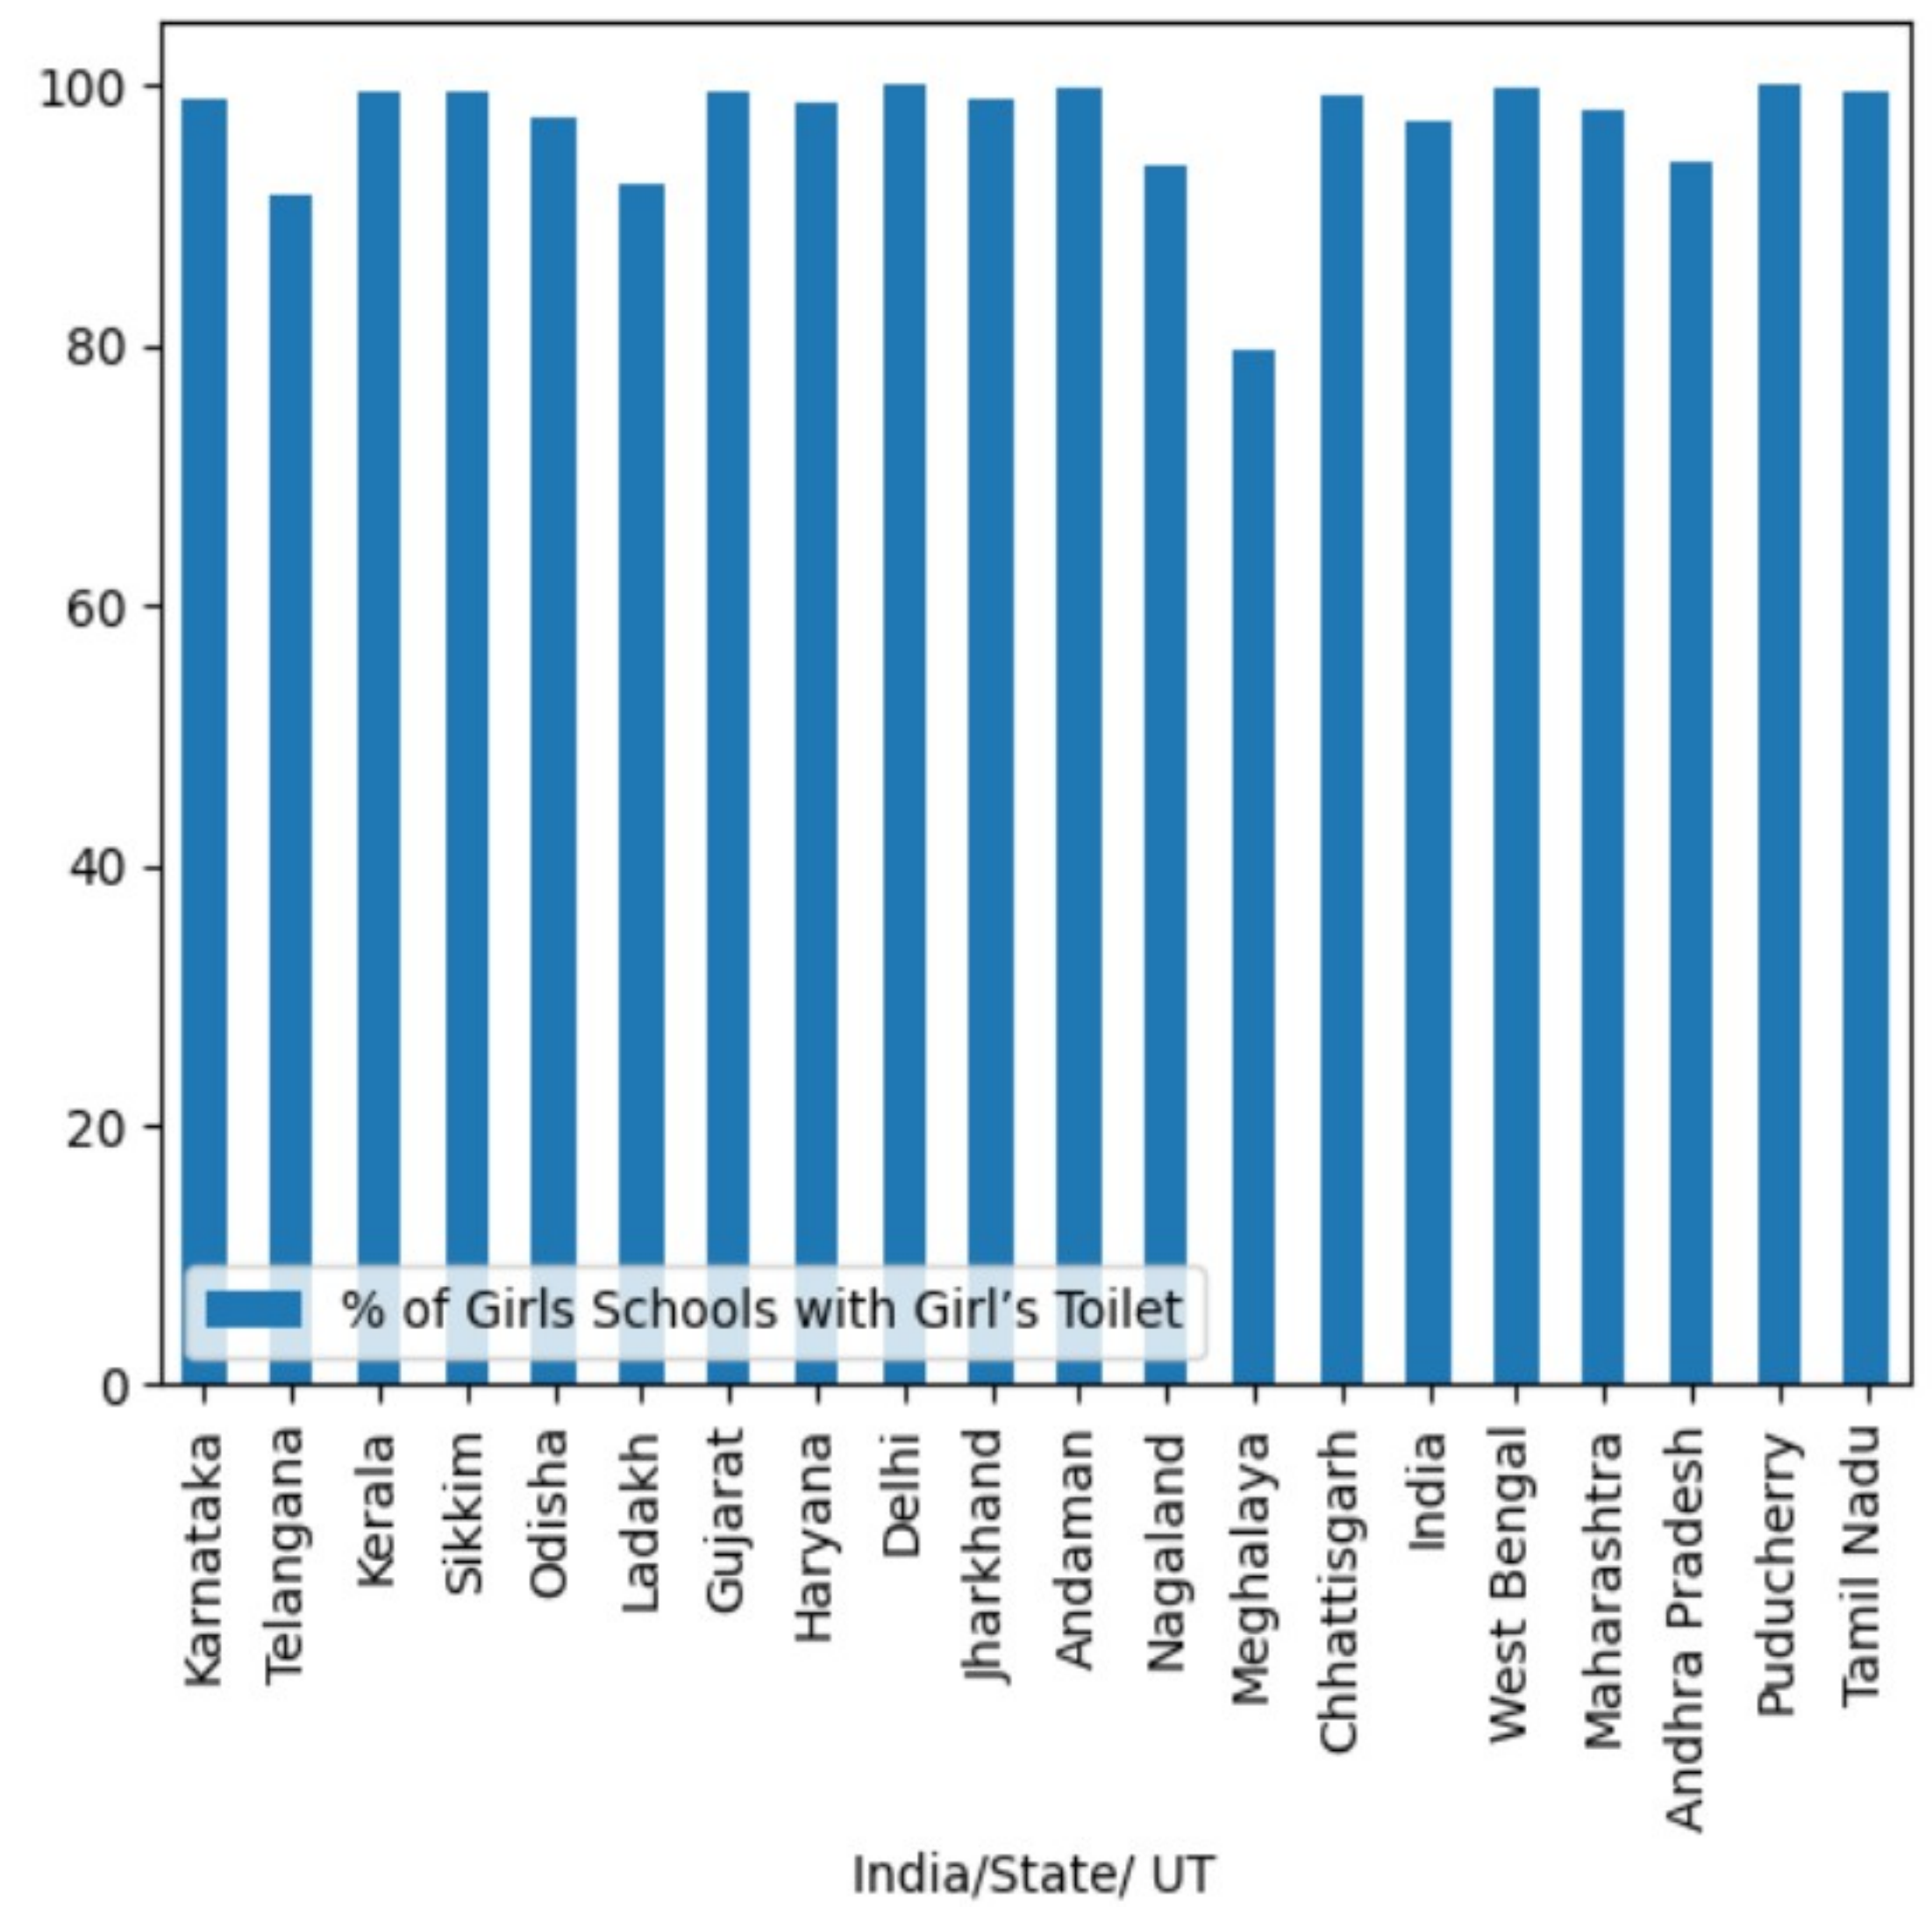

Some Example Databases

data.gov.in

Open Government Data, India

Government Open Data License (GODL)

1. Attribution: The "user" must acknowledge the provider, source, and license of data by explicitly publishing the attribution statement
2. "Use" only for lawful purposes
3. Non-endorsement: The user must not indicate or suggest in any manner that the data provider(s) endorses their use and/or the user.
4. No Warranty
5. Continuity of Provision
